

# PHA DRIVERS We need Your car for the 2021 PHA Race Car Display at the May 14 and 15 Carlisle Import/Performance Nationals

Since 2006 the PHA has enjoyed a major presence at the Carlisle Import/Performance Nationals through our display that each year has attracted hundreds of visitors who stopped by to learn who we are, what we do and how our racing activities promote the oldest continuing form of automobile completion – hill climbing. Our exhibit includes constantly running video, still pictures, printed literature, a large, attractive display of PHA race cars and their drivers who are more than willing to interact with visitors. Our race cars and drivers on display have always been the most popular and interesting part of our exhibit.

**Again this year, the PHA will be represented at the Carlisle Nationals - the largest import/performance car show in the U.S.A.** Our display will be located under roof in the large open-sided pavilion in the newly established Race Car Paddock at the East side of the fairgrounds. **Participation for us is totally free. This includes driver credentials, tow vehicle including passengers, race car and trailer parking.** There will be adequate space for all our tow vehicles and trailers to park in close proximity to the pavilion for the weekend. **Show hours are from 12 noon to 5 p.m. on Friday and 9 a.m. to 5 p.m. on Saturday after which time the show closes.** We need about 25 PHA cars for our exhibition. In past years PHA cars attracted much attention and interest from among the thousands of car enthusiasts attending the show. This year we hope to increase the number of cars so we can attract even greater numbers of visitors in our attempt to publicize and promote the PHA and its activities. **“We really do need your car.” If you plan to participate, please complete the on-line application by clicking on the link [www.CarlisleFeatures.com](http://www.CarlisleFeatures.com) fill out the application, add a picture and send it back to Carlisle Productions as soon as possible so a picture of your car can be included in the event program. In order to be accepted to show with the PHA, on the application in the space under car history you must indicate that you car is a PHA race car - no other information is necessary for us. While the application asks for several pictures of your car, one picture will be sufficient for PHA cars.** If you intend to show your car on both days you may either leave it overnight Friday in your paddock display space inside the pavilion or return it to your trailer for safe keeping. Carlisle does provide security throughout the weekend. To show each day you need to arrive prior to 9 a.m. Drivers may show on Saturday only. For drivers exhibiting their cars both days, or for those who wish to arrive on Friday evening for show on Saturday only, there is nothing to prevent participants from sleeping in their trailers or tow vehicles overnight, however there is no tent camping in the area where trailers and tow vehicles are parked. **Drivers whose cars are accepted will be notified on-line by Carlisle Productions with instructions as to where upon first arrival at gate three you go to pick up admission credentials for their race cars, tow vehicles and trailers plus occupants.** If you plan to show your car - in addition to completing and sending back the application - please notify Gordon Wise at [redhotvr6@hotmail.com](mailto:redhotvr6@hotmail.com) or by phone at (717) 964-3044 (leave a voice mail) so he and **John Pitman**, co-organizers of the exhibit, can reserve sufficient space for you in the paddock. Please indicate which day(s) you plan to exhibit. Come and experience the fun while enjoying the companionship with your fellow PHA drivers. Attendance at Carlisle for our drivers has always been enjoyable. The show is overflowing with car culture while offering lots to do. Let's make a great impression as we promote hill climbing with the PHA. John and Gordon hope to see you there. If you encounter any difficulty registering, sending a picture, etc. contact Gordon.
