What's Happening!

I'm happy to announce that one of the "Museum's" largest artifacts, the Subaru GL originally owned by Mike Oleyar, driven by Tom Donald in the early 70's and then later owned and raced by Horace Franco & Ken Lewis in the 80's, was officially certified by the Antique Automobile Club of America (AACA) and will be shown at this year's AACA Fall National Meet in Hershey. It will make it's first appearance publicly since Fall Weatherly 2009 and will be part of the race car conditioning presentation in Hersheypark Stadium on October 12th at 11am. All race cars have to prove that they move under their own power and do a few laps in the stadium. This part of the fall meet has become very popular as the West bleachers fill with hundreds of people to watch race cars from all eras. We'll then have the car on the show field on Saturday, October 13th in class 24b. So...if you are in the area, stop by and say hello!!

If you are in town for the Fall meet...I am hosting the annual weenie roast at "the farm" on Wednesday night October 10th. Contact me for directions!!

As outside work starts to wind down for the season...once again my focus will be on building up the electronic result files and data-bases. I also plan on adding some shelves and doing some more file organization. Remember...you can visit anytime...just make an appointment by calling 717-838-2698.

Recently got in contact with Barney Hertzog via Facebook. He came across the PHA Museum/Archive page. He is living in Colorado...doing well. Doing power lifting...I want to add him to the PHA Veterans group, but he has to add me as a friend. So hopefully we'll get him linked up! I did get his email address...so if you want to touch base with him, let me know.
